

Environmental Impact Report 2022

Materials Reused*

104,992

pounds of materials

109,367

total items

Environmental Impact**

The energy saved through recovering these materials is equivalent to:

516.98

metric tons of CO₂E

1.80

billion BTUs

This emissions reduction is equivalent to...

Charging
66 million
phones

Switching
to **19,657**
LEDs

Taking
112 vehicles
off the road

This data was prepared by donateNYC and fully funded by NYC Department of Sanitation.

* Not all materials are currently classified in the Reuse Impact Calculator, so this may not be a complete representation of the total weight reused by the organization.

** Greenhouse gas emissions and energy savings were estimated using US EPA's Waste Reduction Model (WARM) and US EPA's Gas Equivalencies Calculator.
